The Reckoning.  
It's well we should feel that life's a reckoning we can't make twice over; there's no real making amends in this world, any more nor you can mend a wrong subtraction by doing your addition right.—George Elliot.

#### You Know These Tires Will Not Skid

There's a sense of security in motoring with the unusually non-skid Horse-Shoe Cord Tire. You know your tires will not skid even when you turn corners at 20 miles an hour on wet and slippery pavements.  
Each little shoe in the Horse-Shoe tread forms a near-vacuum that takes hold of the road with a stubborn grip which is as effectively anti-skid as tire chains.  
Then there is the satisfaction of knowing that the wider tread of this tire gives longer life by wearing down slowly and evenly, making your tire cost-per-mile surprisingly low.  
We shall be glad to prove to you by actual tests why the Horse-Shoe Tire is the *safest* and most *economical* tire local motorists can buy.
